BY PRIVATE CAPITAL

Will the New Hospital Be Conducted.

THE DAVIDSON OPERA HOUSE

Has Been Selected As the Place—Negotiations Now Being Made For the Property. Railroad and City Expected to Lend a Helping Hand—Special Advantages in the New Move.

The prospects for a hospital are today brighter than they have ever been, and the men who are backing the project believe they will soon have the institution ready for patients.

Being disappointed in the effort to have the matter pushed as a public institution, they adopted the plan that as a private institution it would be eminently successful, and there would not be too many cooks to spoil the broth. With this end in view half a dozen physicians and other men with money held a meeting, and talked it all over. The result was a determination to move without delay, and being business men who do not let the grass grow under their feet, they were soon looking for a site. The first idea was to rent the old Davidson building on Second street, and negotiations were at once opened with the owners. The property amounts to almost nothing as it is at present, and the owners were only too glad to make a proposition. This was done several days ago, and was so generous that the interested parties became doubly interested in their cherished scheme. The plan, as it is now considered, is to interest the Pennsylvania company in the project, and secure from them substantial aid. As it will be the only hospital between Pittsburgh and Wheeling, and the need of such an institution is so often felt, it is believed the company will do the handsome, and materially aid in carrying out the design. It is also expected that the city will lend a helping hand, while the county might be brought into the fold because of the number of cases in the hands of the township. The company owning the hospital expect to fit it up with all modern improvements, and make it first class in every particular. The wards will be scientifically arranged, and the hospital force of physicians will be all that anyone could ask. The company will have too much at stake to risk a failure, and are even now moving with care and deliberation, although they are losing no time. In discussing the matter today one of the foremost physicians of the city said:

"The scheme to establish a hospital by private capital is well under way, and I don't know why it will not be successful. It is the purpose of the men who put their money and experience into the movement to do the right thing and make no blunders. We have reason to believe the railroad officials will be glad to help, for they need a hospital in this part of the country. The city, I think, will help the project, for we expect to give the township trustees every advantage. They can have their beds at rates that will reduce the expenditure for people under their care, and will give better opportunities for the quick recovery of patients. To them such an institution will be a blessing which they can not afford to pass without giving their patronage and help. They want a hospital because they need it. The same or a similar arrangement will be made with the railroad company, and the hospital will, of course, receive private patients. The paper presented to council on Tuesday evening was not endorsed by the physicians' association, and the general impression is abroad that the hospital can better be conducted as a private institution. The city is naturally expected to help because the real benefit will be to it, and we believe that it will help as much as it can. At present we have no reason to believe that we are making a false move, but on the other hand are convinced that we are on the right track.

"Sanitary conditions surrounding the Davidson building can be arranged all right. Its location is not against it for a hospital, and we can fix it up to splendid advantage. The repairs will necessarily be extensive, but that can be arranged by the company. We are not going to conduct a sanitarium, for if we were we would move out on the hills. We are going to have a hospital to which the maimed and sick of this part of the country can be brought for treatment. We have not yet made a proposition to the owners of the building, but you can say that arrangements are being made to secure it."

The speaker is among the best known and most successful physicians of the city, and from its first inception has manifested a lively interest in the proposed hospital. He thinks the county needs one, and will lend his every aid to make the design successful.

SHERIFF LODGE SPEAKS.

Blockhead Sensationalism is by no Means Journalism.

A daily paper of this city, of limited and circumscribed circulation, and of no repute in so far as truth and veracity is concerned, has lately made itself very ridiculous, through the medium of a hare-brained youth who poses as a reporter, but who has sadly missed his calling. Three columns were devoted to the delectable sheet, not long since, to an account of a search for soup bones, and the public has scarcely ceased laughing at the assinnity and stupidity of the so-called reporter, when another dish of soup was hashed up and served to the suffering public, headed as an expose by Roundman Duncan, of Wellsville, who had been ousted from office by the officials of our sister city and who had used the sucker on the back alley sheet in an attempt to even up matters.

Sheriff Lodge's name was used by lack-of-brain in his sensational report, and the evident intention of billy blockhead was to cast odium on the sheriff. In a conversation with Mr. Lodge today, that efficient officer brands Duncan's statement (if he ever made such statement to the cupid) as a plain, unmitigated lie, manufactured for the occasion. The sheriff states that the first knowledge he had of where Lizzie Ewing's body was concealed, was immediately after the corpse had been dug up, and the intelligence was then forwarded to him through a Wellsville official. He further states that, if Duncan made the statements accredited to him by the unsavory sheet above mentioned, then Duncan's testimony in the late troubles at Wellsville don't amount to anything, and the fellow was romancing all the way through, merely in an attempt to cast odium on the men who had called him down.

FOUR YEARS OLD.

East End Daughters of Liberty Celebrated Last Night.

Goodwill council, Daughters of Liberty, celebrated their Fourth anniversary in Mechanics' hall, East End, last night, with a large number of invited guests present. The meeting was opened with prayer by Rev. R. F. Sears, followed by an address of welcome by Mrs. T. McCain, who read a letter from National Councilor Foelt, expressing regret that he could not be present, but sending greetings and words of commendation for the work already done by the council. This was followed by a recitation by Mrs. John Putnam, and Rev. H. E. Hall delivered an address. It was a splendid speech, teeming with patriotism, and leaving no room for doubt as to where the young theological student stood or as to his views on the strength of women in the work of guarding the public school system. In connection with his speech Mr. Hall read an article entitled: "Where Are We At?" which was well received by the audience. Mrs. Putnam amused by the recitation of a piece entitled, "Jay Gould's Appetite," Miss Effie McKinnon spoke a pretty selection and the program closed with a humorous essay by Mrs. W. F. Hanley on "Man." The council was disappointed regarding music and several prominent members of the Mechanics and Lucy Webb Hayes council, who were booked for speeches, failed to appear. Appetizing refreshments were served after the entertainment, followed by social games until midnight. The daughters are an organization as hospitable as they are patriotic, and deserve the success they have won.

DOWN CAME THE WALL

A Fortunate Accident at the Thomas Pottery.

THERE WERE NARROW ESCAPES

But Not an Employee Received a Scratch. The Girls Were Frightened and Escaped by the Rear Windows—Workmen Excavated Too Close to the Stone Wall.

What might be termed a fortunate accident happened at the Thomas pottery on Seventh street this morning, when the brick and stone end of a kiln shed fell out without hurting any of the employees.

The company are having a new building erected around the plant, and it was their purpose to tear down the old structures as soon as the improvement was far enough advanced to prevent loss from the elements. The outer wall of the new building is well under way, and workmen have been excavating for a wall to extend the entire length of the structure. In their labor they got too near the north wall of the kiln shed which faces the pressing shop where red knobs are made. The construction of the factory is such that immediately below this shop is the room where the dynamo resides, the roof of it forming the passageway between the kiln shed and the shop. As the whistle blew for work this morning a party of a dozen girls, knob makers, walked through the kiln shed to their work, and were laughing and taking off their wraps when the stone foundation gave way, the brick wall fell into the room below, covering up the dynamo and breaking a steam pipe, and a vast cloud of dust rose into the air. The crash was not loud, but the persons who heard it hastened to the spot expecting to see the girls buried under a mass of ruins. Instead they saw that the pressing shop had not been touched, but the girls were frightened, and were climbing out of the rear windows as fast as it was possible for them to move. Not one had been hurt, and Foreman Joyce, who stood at one of the kilns close to the wall, was also uninjured, although his face gave evidence that he believed some one was hurt. A. W. Thomas was attracted to the spot by the sound of escaping steam, and examined carefully to see if any one had been hurt, breathing a sigh of relief when he found there had been no loss of life. Meantime the news had spread rapidly in town, and exaggerated reports were flying everywhere. Many persons visited the scene, and surprise was general that all had escaped without injury. Had the wall fallen a minute sooner the result would be told in mangled bodies.

The wall was 50 feet long, and was built with a stone foundation. Workmen started to clear up the debris a few minutes after the accident, and until their work is done it will be difficult to estimate the damage, although it is known the loss will not be great. The dynamo being covered, it will be several days before the Thomas residences can have light from that source.

HIS REPUTATION

Valued by the Jury at \$75—Matrimonial and Real Estate Deals.

Special to the News Review.

Lisbon, May 18.—Simeon Maneval, of East Palestine, who sued Samuel F. Kopf for \$3,000 damages for accusing him of stealing a couple of syrup gauges, was awarded \$75 by the jury today.

Marriage Licenses were issued to J. K. Hofmeister and Miss Alice Crouse of East Palestine and Vernon A. Dickey and Miss Cora B. Sharp of Leetonia.

The following transfers in realty were made today: The heirs of John Baumer to Patrick Craig lot 800 in Gaston's addition. Consideration \$640. Homer Laughlin and wife to Wellsville Electric Light company land on which plant is located and all the fixtures and machinery. Consideration \$10.

No West Virginia Berries.

West Virginia farmers came to town today and their down cast expressions told plainer than words that Jack Frost had lingered with them long enough to make him unpopular. Raspberries and strawberries in that section were killed, and one farmer states that even his blackberry bushes were withered and blackened by the frost, and that what were left from the ravages of winter are a total loss. The Hancock county farmers were among the heaviest losers.

The Last Phone in Place.

Manager Frank Swaney, of the telephone company, today finished the work of placing new telephones in position by fitting up the office of

THE WAY THEY WORK

The Law and Order League is Not Dead.

COMMITTEES ALWAYS ACTIVE

The Task Has Been Apportioned to Different Members Who Meet and Report With Regularity—No General Meeting For Months. They Had Evidence Before the Last Grand Jury.

The law and order league, organized last February, and talked of a great deal for several weeks, is still a living institution, although nothing is ever heard of it in public and the members have allowed the impression to go abroad that the society has been dissolved, and nothing was ever accomplished.

When the league was formed the prime movers realized the importance of secrecy in order to make their work effective, and efforts were made to keep it from the public. By some means the particulars of the organization appeared in print, and the officers accepted the theory that they could do nothing with the public watching their every move. With that end in view several meetings were held, but no news was given, and interest in the movement gradually died out. That is what the organization desired, and the members spread abroad the impression that the law and order league had decided not to begin aggressive work, and would disband. Instead, however, of disbanding, the organization became more effective, and settled down to work. The different branches were placed in the hands of carefully selected committees, and the battle began. The identity of all active members and general officers were looked up in the breasts of the few people who were on the inside, and as the work progressed the society found that it had hit upon the right plan for success. Some members did not know the others except the few with whom they were directly associated, and it is safe to say that even now not half of them know what the other half are doing. In this manner the work has been effective and the influence wholesome. There is so much to do and so small a number to do it that time is required, and only a little of what the society has done can be seen. The work of the committees, however, has been complete, and they have piled up information that will be of service in the future. Each division has been holding its own meetings and attending to its own work without regard to what the others were doing, and information has been piling up in a satisfactory manner. A general meeting of all the active members will soon be held, but when or where is known only to those who attend. There will be no announcement other than the passing along of the word of time and place to the faithful. They will attend, the business will be transacted, and plans will be arranged for carrying out the original design of the organization. There will be no ostentation or display, and when the victims feel the blow they will not know the powerful hand that struck it.

The plan upon which the organization works does not reflect upon the municipal authorities; instead, the avowed purpose is to aid them by collecting and furnishing evidence in the prosecution of such cases as come before them. If the police miss a violation of the law, it is the duty of the society to provide proof and make information. They also work before the grand jury convenes, and give that body material upon which to act. Before the last grand jury, evidence was sent covering five cases, and the society believed that there was enough to indict the lot, but they were mistaken. Only three materialized, and the society can not understand what it all means. They hope to do better the next time.

What the Maccabees Gave.

Several weeks ago the News Review published a statement from some friends of Miss Nannie Thompson, who had been sent to California, of the amounts contributed by the different societies in her welfare. The Maccabees say that instead of being credited with \$44, the actual amount of their contribution they were announced as giving \$9. The contribution was \$21 sick benefits, \$14 nurse bill, and \$9 in cash.

Attachment and Garnishee.

Martin Brozka entered suit in Squire Rose's court today against David Allison asking \$12.90 for work and labor and material furnished. Attachment and garnishee papers were issued and served on Allison by Constable Lyons, and the case will come up for trial on Wednesday next at 8 o'clock.

TO RACE IN YOUNGSTOWN.

Local Wheelmen Will Be at the Meet.

At the meeting of the Ceramic City Cycle club last evening the constitution was adopted, a committee appointed to locate club quarters, and another to decide upon an emblem and colors in order that members can wear them at the Youngstown races. A number of wheelmen expect to test their speed at the meet, and are desirous of winning under the colors of the club. The meeting was little more than a committee meeting, although other members were present. The club quarters will be reported at the next meeting.

PAT SKELLY ARRESTED.

Constable Thorne Got Him at Noon Today.

Pat Skelley, an individual who figured with more or less prominence in the Wellsville investigation, was arrested at noon today by Officer Thorne in the saloon of Mrs. Hamill in the West End. Skelley is badly wanted for selling liquor illegally, but made no protest when Thorne told him he was under arrest. He is charged with selling to a minor last March, but the warrant was not issued until today. He was arraigned this afternoon.

THE CONGRESSMAN HERE.

There is No Political Significance in the Visit.

Hon. R. W. Taylor, of Lisbon, arrived in the city last night, and spent the evening looking after private affairs. When seen by a News Review man this morning he was examining the new central high school, and thinking how pretty the county seat would look with that magnificent structure within its borders. Mr. Taylor's visit to the city has no political significance whatever. He is here looking after private matters.

LOST A TOOTH.

Thomas Harsha and J. T. Herbert Collided.

Thomas Harsha and J. T. Herbert, mounted on bicycles, collided at Fifth and Washington streets last night. Harsha's wheel turned sharply across the course pursued by Herbert, and before either could stop they were piled in a heap on the pavement. Their first care was for the wheels, and when it was found they were not broken, they examined themselves to find that they were bruised, and Harsha had lost a tooth.

Dropped in the River.

They tell a good story of a fisherman who went to Walker's yesterday morning, and arrived home in the evening with his clothes wet and muddy. He did his best to explain to his wife that he had slipped off the rocks into the river, and she accepted the story as truth until she found an empty "bait" bottle in his pocket when brushing his clothes. There is a coolness in the family now, for there was enough whisky in the bottle to show the wife the cause of the accident.

Wool Is Cheap.

Some wool has been clipped in the county, but farmers are not rolling in wealth or banking upon the expectation of big prices when the buyers come around. One man owning a large number of sheep said that he did not expect to see much more than a half clip in the county this year, so many sheep having been sold because of the low price of wool. At present he does not expect to see the rate go above 14 cents for the best.

Jury Trial Monday.

The case of Sarah A. Hamill versus Thomas McGee will come up for trial before a jury and Squire Rose at city hall at 1 o'clock Monday afternoon. The suit is for \$105 and the defendant demanded a jury this morning. The jury drawn is H. L. Simms, L. M. Thomas, F. S. Albright, E. N. Huntsman, John W. Wyman and C. A. Fowler.

A Coming Ball.

The Waverly club have issued invitations for a dance in Bradshaw hall on Thursday evening next.

For President,
WILLIAM MCKINLEY,
OF Ohio.

ONE of the great needs of Colum-
biana county is a road from East Liver-

of traffic justifies a much better highway
than that which travelers traverse at present.
Some day it will force itself upon the public,
and a private corporation will do what the

A LISBON TRUTH.

This is a Democratic year.—Lisbon
Patriot.

Yes, this is a Democratic year. On
one occasion the Patriot has told the
truth. Perhaps it did not intend to be
truthful—in fact, there is ample
room to believe that the Patriot
wanted to convey the idea that the
Democratic party would win this year,
and the drooping feathers of the un-
happy rooster would again be raised
in token of victory. But it is an-
other meaning in those words, an-
other proof that this is the year of the
party of Potts and Cleveland, as it is
said they occasionally put it in the
county seat. We know this is a Demo-
cratic year, because it bears all the
ear marks of Democratic inefficiency
and misrepresentation. Last year was
a Democratic year, too. We know that,
because the mills and factories were
shut down, soup houses flourished in
every manufacturing district of the
land, strikes were the order of the
day, and there was trouble and sorrow
on every hand. Conditions have
changed a little in this Democratic
year. The Republican victory last
fall gave the people new courage, trade
has improved a little, and some of the
wages taken away when the blackness
of despair was upon the nation have
been returned. But that is not all.
The blight of Democratic occupation
of Washington is still upon the land.
The people have not been given what
they were promised, nor will they see
the beauties of prosperity until there
is no longer evidence of another Demo-
cratic year.

PRACTICAL RELIGION.

Doctor Mutchmore, the retiring
moderator of the Presbyterian As-
sembly, talked sense when he uttered
these words in Pittsburgh.

"There is no phase of work so im-
portant as more systematic effort in
great cities. Cities are ulcers on the
body politic, and the danger in them
to church and state is appalling. New
York city has been for years in the
talons of a vulture, which has con-
sumed as much of her vitals at night
as grew by day. Robbed, debauched,
trodden under foot of the Behemoth
of lust, that which the law could not
do, in that it was weak, was done
under the lead of a Presbyterian min-
ister. In the laudations over victory
it should not be overlooked that the
Presbyterian church led the host, as
she does in all times of national peril.
But beneficent as this work has been,
it may become a snare, for ministers
should not give themselves to munici-
pal reform any further than for the
betterment of society through saving
the souls of men. The church can su-
persede the necessity of municipal re-
form by increased organized labor. Only
in this way can we save ourselves
from this untoward generation." If
we shall conserve the liberties of the
nation, it will depend on the man-
ner in which we use our stewardship.
If the spirit of the gospel is not injected
into the body politic, we will perish.
The very sinews of our power
will become the means of our destruc-
tion. The ghastly skeleton of our
national life will be tumbled into the
common ditch of dead empires."

If the men who make it their busi-
ness to criticize municipal government
would interest themselves enough to
work as well as talk in the cause of re-
form, there would be less necessity for
such utterances as came from Doctor
Mutchmore.

TENEMENT HOUSE COLLAPSES

Three Persons Killed and Eleven Injured
In Providence.

PROVIDENCE, May 15.—A 2 1/2-story
wooden tenement house, owned by
Joseph Lemoine and occupied by sev-
eral French families in Coventry, in
that part known as Jericho, seven miles
from this city, has collapsed and three
persons were killed and 11 injured. It
is thought that two of the latter are
fatally hurt. The building had been
raised to permit the building of another
story beneath it.

The killed are: Mrs. Mabel Guertin,
50 years old, occupant of house; Asa
Aldrich, 53 years old, workman em-
ployed in raising house, and 2 1/2-year-
old child of Louis Lemoine, occupant
of house.

The injured are: Mrs. Joseph Le-
moine, aged 70 years, crushed, bruised
and internally injured, probably fatally;
Noah Richards, a workman, scalp
wounded, side crushed, probably fatally
injured internally; Mrs. Louise Le-
moine, 35 years old, seriously injured
about the head; Fred Balliere, 10 years
old, scalp wound, unconscious; Frank
Lemoine, 18 years old, leg fractured;
Joseph Lemoine, 85 years old, serious
contusions; Gosselin, 10 years, scalp
wounds, shoulder crushed; two small
children, named Ganniere, also injured,
one, a boy, was cut about the head, the
other, a girl, fractured leg. Two others
sustained slight injuries, but were able
to care for themselves.

Brooklyn Gas Companies Consolidate.

NEW YORK, May 15.—A transaction
involving the consolidation of all the
gas companies of Brooklyn has just
been completed. Negotiations, which
have been in progress for more than
two years past, will be consummated on
Monday next, when the various inter-
ests in the new combination will turn
in their securities into the common
fund. The alliance includes the seven
companies in Brooklyn and is formed,
among other persons, by H. H. Rogers
of the Standard Oil company, Collis P.
Huntington, General James Jourdan of
the Fulton Municipal Gas company,
Camille Weidenfeld of the Citizens'
Gas Light company and Moore and
Schley.

House Wrecked by Dynamite.

MUNCIE, Ind., May 15.—At Parker,
eight miles east of here, the boarding-
house of Mrs. John Hewitt has been
wrecked by a dynamite explosion. Mrs.
Hewitt and her daughter Susie were
taken out of the wreck unconscious and
both are terribly injured. Mrs. Hewitt
is injured internally and her daughter's
legs are crushed. Four other occupants
of the house were slightly injured.
Mrs. Hewitt was living apart from her
husband, and when he appeared at the
scene of the disaster Mrs. Hewitt ac-
cused him of causing the outrage.

Burned a Bed and \$300.

NEW YORK, May 15.—A Biesia-
decker and his wife have had an ex-
pensive case of diphtheria at their home.
A child in the family died of the disease.
Dr. Comer of the health department
sent the husband away and put a pan of
burning sulphur beneath the bed in
which the child had died, and with-
drew. The flames from the sulphur
spread to the bed and entirely destroyed
it, together with \$300 in bills which
Mrs. Biesidecker had hidden in the
mattress.

Both Congressmen Very Ill.

WASHINGTON, May 15.—Both Repre-
sentatives Hitt of Illinois and Cogswell
of Massachusetts have grown much
worse within the last few days, and the
grave fears felt that their recovery was
very doubtful have been revived, and
there are apprehensions that in their
enfeebled condition they may not be
able to much longer resist the encroach-
ments of their maladies.

Wilkinson Likely to Be Ousted.

MILWAUKEE, May 15.—A local paper
asserts that there is likely to be a
change in the grand mastership of the
Brotherhood of Railway Trainmen.
Grand Master Wilkinson, it says, is in
a fair way of being ousted and James
Morrison of New York elected in his
stead.

Thirty Persons Burned to Death.

ST. PETERSBURG, May 15.—The town
of Brest-Litewski, in the province of
Grodno, Russian Poland, has been com-
pletely destroyed by fire, and 30 persons
were burned to death. Brest-Litewski
was a town of about 40,000 inhabitants.

Net Increase in Revenue.

WASHINGTON, May 15.—A treasury
statement of the receipts from internal
revenue during the ten months ended
April 30, 1895, shows a net increase of
\$1,511,724 over the same period in 1894.

Arthur M. Wellington Dead.

NEW YORK, May 15.—Arthur M.
Wellington, editor of The Engineering
News, has died at his residence, 34
Gramercy park, after a prolonged ill-
ness, of kidney disease.

SEMINARY CONTROL.

Assembly Resumed Debate on
the Subject This Morning.

IT IS PROCEEDING WITH VIM.

Dr. Young Started the Discussion When
He Made His Speech on the Report of
the Committee—Others Talk on the
Matter—Routine Matters.

PITTSBURG, May 15.—The discussion
over seminary control was resumed this
morning in the Presbyterian general
assembly, and is proceeding with even
more vim than when it was stopped by
the hour of adjournment yesterday af-
ternoon. The opening of this subject,
which is the most important question
before this assembly, was preceded by a
good deal of routine business.

The standing committees were an-
nounced. The chairmen are as fol-
lows: Bills and overtures, Rev. Dr.
Mutchmore, ex-moderator; judicial, Wil-
liam N. Page; polity, General Adams;
home missions, Dr. George Norcross;
foreign missions, George W. Chalfant;
education, Martin D. Neelan; publi-
cation, John C. McClintock; church erec-
tion, George C. Boardman; theological
seminaries, Francis C. Munford; minis-
terial relief, Jesse F. Forbes; freedmen,
J. I. Blackburn; aid for colleges, War-
ren H. Landon; correspondence, How-
ard A. Johnston; benevolence, Henry
H. Jessop; narrative, William H. Cooke;
temperance, Ezra B. Newcomb; leave
of absence, David H. Riddle; mileage,
Henry T. Nash; finance, James Year-
eance.

Dr. William C. Young, D. D., then
read the report of the committee on
seminaries.

The recommendations which offer to adopt
all the seminaries are Omaha and
Dubuque. Princeton board "will
endeavor to secure such action as will
insure to the general assembly the
right to be represented in the courts
and enforce proper control." The
board of the western seminary, Alle-
gheny, "sees no reason to ask any
change in existing relations to the as-
sembly." Danville will adopt the re-
commendations as by-laws. San Fran-
cisco, being under synodical care, has
deferred action.
Dr. Cunningham read the report of
the special committee on Lane seminary,
which outlined that the board of
directors of that institution are willing
to adopt all the recommendations of re-
organization and increase of the general
assembly. Dr. Cunningham recom-
mended that no debate take place and
the report was adopted and the com-
mittee continued, owing to the good
work they have done.

The report was received, and it was
resolved that the subject be taken up
later for further discussion.
The report of the committee on Sab-
bath observance was read by William
R. Worrall, and among the recommen-
dations were the following: "That we
deprecate the growing tendency in many
places to make the Lord's day a season
of worldly entertainments, social visitations
and personal self-indulgence. We
particularly enjoin upon the members
of our own church to see to it that they
do nothing by example to increase the
frightful desecration of the Lord's day.
We heartily commend all Sunday legisla-
tion designed to protect the Christian
Sabbath as a day of rest and worship." The
report was accepted and the resolutions
adopted.

In a few words Mr. Worrall spoke of
the evils of Sunday dinners, and Dr.
Johnstone of Chicago recommended a
day of prayer every year for Sunday ob-
servance.

Dr. Kneeland of Boston also spoke on
the topic, enlarging on the work of the
New England Sabbath Observance
league. He was sorry that no mention
was made in the report of "that agent
of the devil, the Sunday newspaper." He
condemned Sunday newspaper read-
ers and advertisers, and recommended
a boycott to choke out the evil.

Elder Dickson of Lackawanna pres-
bytery, made an impassioned address
against the Sunday newspapers. He
urged the assembly to denounce them
and their advertisers, and his re-
marks were received with cheers. He
put in an extra recommendation as fol-
lows: "That ministers and members
of the Presbyterian church be warned
against the evil and insidious influence
of the Sunday newspaper and urged by
word and action to decrease their un-
wholesome power."

A rising vote was taken by the mod-
erator, who called the matter a "vital
one," and amid great applause it was
unanimously carried. The committee
was continued with the thanks of the
assembly.

Dr. Fox of Brooklyn read the report
of the committee on "temporalities of
the church," which was adopted.

Dr. Hubbard of Auburn, N. Y., read
the report of the committee on The As-
sembly Herald. This is the first year
of the paper and the expenditure for
ten numbers, with over 1,000,000 copies,
was \$11,904. The income was \$19,774,
and with outstanding debts the assets
on May 1 were \$7,790. The monthly
circulation will soon be 400,000 monthly.
After the report was read Dr. Hub-
bard gave a very amusing account of
his experience as editor for the first
year. He was brimful of anecdote, and
kept the assembly in good humor. He
asked also for the appointment of a
committee of the most representative
men in the church to devise ways and
means to push The Assembly Herald
into every home in the land, and asked
that General Beaver be made chairman.
General Beaver also spoke.

The last weekly prayermeeting in
October was by general consent set
apart as the yearly prayermeeting on
Sabbath observance.
Dr. Young, chairman of the com-
mittee on seminary control, the most im-
portant matter to come before the as-
sembly, then began his address on the
work of the committee during the year.
The report had been circulated among
the commissioners and already re-
ported.

In the report it is stated that the
boards of directors and trustees of
Princeton Theological seminary con-
sider the proposed amendments to their
charter as unnecessary, and they ought
not to be made. They gave six reasons
for this, which, really summed up,
means that the charter, the control of

the trustees, boards, teachers and pro-
fessors is now in the hands of the gen-
eral assembly, and concludes that "the
plan and charter, both venerable in
years, should stand untouched."

Dr. Young said that the mad fancies
of Hamlet were the reasonings of a
sound mind compared with the eccle-
siastical hobgoblins, tyrannies and des-
potism, that have been conjured up by
the newspapers in the report of this
committee. The results of the last
year's work ought to give courage to
the church. He asked for the indorse-
ment of the assembly. Such seminaries
as cannot come under the plan are not
Presbyterian institutions, and the
church does not want to spend educa-
tional funds, nor pass in review the
work of, nor lend its countenance to
anything but Presbyterian seminaries.

In closing, Dr. Young appealed to the
assembly to keep up the work, for with-
in another year safeguards will be
thrown around all these seminaries that
will bind them to the mother church.

Rev. Howard Johnstone, D. D., of
Chicago, was the next speaker. He
claimed that the committee had not in
its report kept to the exact sentiment
and verbiage of the answers of the
seminaries to the overtures of the as-
sembly.

Elder James Y. Yearneance of New
York questioned a statement of Dr.
Johnstone's, and Dr. Johnstone wanted to
reply, but Mr. Booth called a halt on
the matter, as it was becoming per-
sonal.
Rev. Dr. W. W. McKinney of Phila-
delphia was the next speaker. He read
closely from his paper. He wanted to
blow away the clouds and get down to
the main business. He dwelt on the
action of the Synodical assembly, which,
by an unmistakable and loud voice,
called for the proposed action on the
part of the seminaries. His address
was largely historical, was quite learned
and lengthy.

But the assembly was too weary to
hear the argument to the best advan-
tage. The time of adjournment arrived
before Dr. McKinney was through, and
he was asked to cease.

It was proposed to postpone discus-
sion until next Tuesday morning. Dr.
William H. Cooke suggested that this
would be a "breeder of speeches," as
all the brethren would go to work
writing addresses. It was decided the
business would come up again this
morning at 9:30 o'clock.

Anarchy in the Island of Formosa.

LONDON, May 15.—The Times today
prints a dispatch from Hong-Kong
which says that anarchy prevails in the
northern part of the Island of Formosa,
and riots are of daily occurrence, nu-
merous persons having been killed and
wounded. General Ku Hung Kuk, a
Hakka chief, has proclaimed himself
king of the northern portion of the
island, and several thousand well-
equipped soldiers have joined his stand-
ard, and his force increases daily. The
Chinese authorities have captured and
beheaded many of his followers, but the
revolt seems to be spreading.

The Buchanan Case Again.

ALBANY, May 15.—The statement
that District Attorney Fellows would
appear before the court of appeals, Mon-
day, and ask the court to order Warden
Sage of Sing Sing prison to bring Rob-
ert W. Buchanan before the court for
resentence, has created quite a stir
here. Never in the recollection of any
person attached to the court has this
body been known to pronounce the
death sentence, and it is believed that
they will refuse to take any action ex-
cept that of ordering the lower court in
New York to resentence.

U. P. Women's Missionary Meeting.

JERSEY CITY, May 15.—The Women's
Missionary society of the United Pres-
byterian church has decided to hold its
next annual meeting at Erie, Pa., on
the 15th of May, 1896. The following
officers were elected: President, Mrs.
Jean Sands, Monongahela, Pa.; first
vice president, Mrs. Arney Biddle, Jer-
sey City; second vice president, Melinda
Presley, Monongahela, Pa.; and Mrs.
Mary Porter, Boston, was re-elected sec-
retary.

Nephew of Gibson Suicide.

NEW ORLEANS, May 15.—James L.
Gibson, a nephew of Senator Randall
L. Gibson, has committed suicide by
shooting himself through the heart at
Auburn, N. Y. The deceased was 33
years of age and had been ill and de-
pendent for some time. Of late he
had been doing some work on a morn-
ing paper. He has a wife residing in
Cincinnati.

Father and Daughter Arrested.

LANCASTER, Pa., May 15.—Special
Pension Examiner John H. Jenks, ac-
tively under orders from Washington,
has arrested Pension Agent Edward Book-
myer and his daughter, Ella, of this city,
charging them with falsely making,
altering, forging and counterfeiting ap-
plications for pensions. They were
held under \$1,500 bail each for trial.

Hornpipe Has Gone Lame.

NEW YORK, May 15.—Triflemen will
regret to hear that Hornpipe, the win-
ner of the Brooklyn Handicap on Wed-
nesday last at Gravesend, has run his
last race in the opinion of such a clever
judge as his trainer, William Lakeland.
He has gone lame.

A. Wilson Kelly Dead.

WHEELING, May 15.—A. Wilson Kelly
has died, aged 81. He was the oldest
native of this county. He was one of
the owners of the Benwood railroad till
1885, and until lately president of the
Belmont mill and interested in many
other large concerns.

AT THE OPERA HOUSE.

The Choral Union Scores a Gratifying
Success.

There was a nice audience present
at the Grand last night to witness the
initial effort of the Choral union, and
the universal verdict is one of pleas-
ure and approbation. Gypsy chorus,
from the Bohemian girl, was nicely
rendered and heartily applauded.
The recitations of Miss Bertha
Cummings were a most pleasing
feature and the talented young lady
was recalled twice during the evening.
"Jack" the tardy lover, was the gem
of the evening, Miss Cummings ren-
dering it in charming manner. Miss
Harriet Worrall did not reach the
expectations of the critics in her
effort in part first, but she captured
the house in the closing selection of
the program, "La Stella Di Nevada,"
and was enthusiastically applauded
and twice called before the curtain.
Miss Pearl Sebring, always a favorite,
did not do herself justice in her selec-
tion of "For All Eternity," the sweet
singer evidently suffering from the ef-
fects of a cold. "All We Like Sheep,"
by Choral union, was nicely rendered
and heartily approved of by the audi-
ence. Misses Montrose Hilbert and
Mary H. Pringle met with warm
encores for artistic piano solos.
Mrs. J. C. Thompson sang, as she
always does, exquisitely. An aged
lady present, a deeply attentive lis-
tener, paid Mrs. Thompson a high
compliment in her expression of "Oh,
there was not enough of that," as the
plaintive notes of "Because I Love
Thee" ceased to vibrate. The tribute
was richly merited.

Professor Gottschall is a success as
director, and he won friends last
night. The opera stage was nicely
set off with plants and decorations.
There should be a full house tonight
to greet the Choral union. The pro-
gram is a very desirable one. Be sure
to attend and take your lady friends.
Miss Cummings will recite at the
entertainment this evening the much
admired "Chariot Race" from Ben
Hur. The lady made her reputation
last evening, and there are many who
will be delighted to hear this an-
nouncement for tonight.

The New Schedule.

The advantages of the new trains
on the Cleveland and Pittsburgh, which
run for the first time next Monday,
can be seen by the following:
No. 360, due here at 3:20 p. m. makes
direct connection at Rochester with
No. 4, of the Fort Wayne for Pitts-
burg; also connects at Rochester with
No. 225 of the Erie and Pittsburgh for
Erie, Niles and Youngstown. No.
359 westbound connects at Rochester
with Nos. 9, 221 and 222. No. 9 leaves
Pittsburg over the Fort Wayne at 7 a.
m. This train leaves Rochester at
7:53 a. m. and according to the new
schedule will stop at New Galilee.

The placing of the new trains in
service will be an especial convenience
for eastern passengers bound for
towns along the river, as it will do
away with the heretofore long waits
in Pittsburg.

Pawnee Bill is Here.

Pawnee Bill's wild west show arrived
this morning and was unloaded in a
remarkably short time, and the tents
were pitched in the base ball park
with a discipline which showed care-
ful management. The street parade
was a credit to the organization, show-
ing careful selection for this particu-
lar kind of an organization. There
was a large crowd at the performance
this afternoon, and all speak well
of the wonderful feats of marksmanship
and horsemanship. The wild life of
the frontier is clearly portrayed, and
throughout the show is as entertain-
ing as it is unique.

He'll Jump No More.

A small boy, who said he lived near
the foot of Washington street, at-
tempted to get on a street car near
Union street last night and was
thrown clear to the pavement. He
alighted on his shoulders and was
badly bruised, but not seriously hurt,
and after sending up a few wails and
swearing in a manner which raised
the hair of pedestrians, he limped to-
ward home.

Another Fish Killer Caught.

Game Warden Albright yesterday
captured another of the gang which
shot fish in Beaver creek at Grim's
bridge. He was Peter Eoff and when
taken before Squire Rose plead guilty
and was given the minimum fine, \$25
and costs. The others have not been
arrested. Eoff made arrangements to
pay the \$29.60 and was released.

Nothing New.

The police court wears a deserted
appearance, no new cases being on the
docket, and only one prisoner being
behind the bars. The lack of work
gave the officials abundant time to see
the parade and attend the circus.

Student to Picnic.

The high school students will hold
a picnic on Saturday next. Miss Kate
Harker's scholars will picnic on Fri-
day.

If you are in Wellsville any evening
call at the new art studio, and have a
negative taken by the new process.

PERSONAL MENTION.

Miss Effa Ralston, of Mechanicstown,
are visiting Mr. and Mrs. Samuel Sea-
right, East End.

—Mr. and Mrs. Loran Bessey, of
Thorold, Ont., are visiting at the home
of Mr. and Mrs. C. W. Brownfield,
Bradshaw addition.

—Charles Sinclair, who resigned his
position as second lieutenant of Com-
pany E recently, passed through the
city on the afternoon train yesterday,
bound for Cleveland. He is now gen-
eral manager for a Philadelphia art
firm and will establish an agency at
Cleveland, having charge particularly
of the Pittsburg branch.

CHURCH CHIMES.

Services in the Second Presbyterian
church, East End, tomorrow, will be
conducted by Reverend Liggett. Sun-
day school at 10 a. m.; Christian En-
deavor meeting at 6:30 p. m.; preach-
ing at 7:30 p. m.

First United Presbyterian church—
Rev. J. M. Wallace, of the Eighth
Presbyterian church, Pittsburg, will
preach morning and evening. Rever-
end Taggart occupies Reverend
Wallace's pulpit.

Church of Christ—At 10:45 a. m., the
pastor will preach on "Church
Finances;" at 7:45 p. m., his subject
will be, "The Duties of Husbands and
Wives;" Lord's Day school at 9:30 a.
m.; Junior Endeavor at 5 p. m.; Senior
Endeavor at 6:45 p. m. Elder C. W.
Huffer will preach at Fredericktown
at 4 p. m.

Who Can Beat It?

East Liverpool is too modest to blow
about what she does, but when the
sewer pipe factories down the river
begin bluffing, we must turn in and
show them a thing or two. For in-
stance at the Knowles, Taylor & An-
derson pipe works, East End, Thurs-
day, the regular force burned out
3,500 "sixes" sewer pipe in just six
hours. Who will beat this world's
record?

Will Sell the Safe.

The attachment case of John I.
Hodson versus Annie E. Taylor which
hung fire in Squire Travis court until
Mr. Travis retired from office has re-
sulted in Constable Dick Albright ad-
vertising for sale the safe he took for
the indebtedness. It is in the hands
of J. A. Norris and will be sold on
May 28.

Going to England.

J. G. Reese, who was for a time in
the tailoring business in this city, will
sail from New York on Wednesday
next on the steamer Majestic for
England. Mrs. Salina Luther and
Mrs. Charlotte Cooper with their
daughters sail for the old country on
the same date and ship.

About the Potteries.

The gloss kilnmen at the Laughlin
pottery are loafing today because of
the lack of biscuit ware.

The Dresden will start on Monday

after a loaf extending over two weeks.
They have a large stock in the ware-
houses, and will run to match up.

Going to Salineville.

The Meteors base ball club will go
to Salineville on Decoration Day to
play two games with the Young
America club of that place.

Finishing Up.

The work on the Thomas pipe line
was completed today and all the men
were paid off.

Old Fashioned

—compound cathartic
pills, "blue pills," cal-
omel or other mercuri-
al preparations, should
not be used in these
days of enlighten-
ed medical science,
when it is so easy to
get a purely vegetable
pill in concentrated
form, sugar coated,
in glass vials, at any
store where medi-
cines are kept.

Dr. Pierce was first
to introduce a Little Pill to the American
people. Many have imitated them, but none
have approached his "Pleasant Pellets" in
true worth, or value, for all laxative and
cathartic purposes.

Once Used, they are Always in Favor.

Assist Nature a little now and then, with a
gentle, cleansing laxative, thereby remov-
ing offending matter from the stomach and
bowels, toning up and invigorating the liver
and quickening its tardy action, and you
thereby remove the cause of a multitude of
distressing diseases, such as headaches, in-
digestion or dyspepsia, biliousness, pim-
ples, blotches, eruptions, boils, constipa-
tion, piles, fistula and maladies too num-
erous to mention.

If people would pay more attention to
properly regulating the action of their
bowels, they would have less frequent
occasions to call for their doctor's ser-
vices to subdue attacks of dangerous dis-
eases.

Dr. Pierce's Pleasant Pellets are
this purpose, Dr. Pierce's Pleasant Pellets
are unequalled, is proven by the fact that
once used, they are always in favor. Their
secondary effect is to keep the bowels open
and regular, not to further constipate, as is
the case with other pills. Hence, their great
popularity, with sufferers from habitual
constipation, piles and indigestion.

They absolutely cure sick headache, bil-
iousness, constipation, coated tongue, poor
appetite, dyspepsia and kindred derange-
ments of the stomach, liver and bowels.

A free sample of the "Pellets," (4 to 7
doses) on trial, is mailed to any address,
post paid, on receipt of name and address
on postal card.

Jack's Royal Sneeze.

"Kipling ought to study Jack," said
a naval officer. "Jack's the most pic-
turesque man on land or sea, and no-
body has written about him as he is."
"If I could do it as well as Kipling,
there is one story I know of which is as
good as the 'Reincarnation of Krishna
Mulvaney.'"

"When I was assistant engineer on
the San Francisco, there was a coal
passer named Tom Delargy under me.
He had been saving up his money for a
long time to cut a big splurge when he
was discharged. I think he had about
\$600 coming to him.

"Jack is a royal spender," and his
shipmates all told him that he needn't
go farther than the Bowery to have the
most gorgeous spree.

"But Delargy wasn't going to be so
commonplace. He took time to think it
all out, and whenever he got hold of an
American newspaper he studied it. The
way the railroad magnates enjoyed life
struck his fancy.

"So when his time was up, and 'Pay'
turned over Delargy's \$600 to him, he
went and chartered a private car and
rode around the country till his money
was gone. Then he came back and re-
enlisted."—New York Journal.

Emotional Literature.

"I suppose you see all sorts of people
in the course of a day's run?" said the
observant man to the train boy as he
bought a package of wintergreen chew-
ing gum.

"You bet!" said the boy, after the
manner of his kind. "Look across the
way there at that woman a-cryin' over
'Unluckily Married; or, the Doom of
Mary Jane.' When she come on the car
this mornin', she were as pretty as a
wax figger, all red and white. Since she's
been a-readin' that novel she's cried till
her face is all streaked and striped. The
zebr's run so she looks just like a
zebra." And the youth walked on, leav-
ing the observant man in deep thought.

TOBY AND THE BEAR.

A MANEUVER OVER WHICH THE WISE
OLD NATIVES DIFFERED.

Toby Was the Smartest Bear Dog In All
the Woods, and His Owner Wouldn't
Have Sold Him For \$100, but He Wasn't
Cut Out For an Acrobat.

"I had a dog named Toby when I
was living up in the Pennsylvania lum-
ber woods," said George W. Reynolds
of the National Lumber company. "He
was a bear dog. Bears, as every one
knows who ever lived among them, hate
dogs beyond everything else, two legged
or four legged, and will frequently give
up a good chance to escape from a pur-
suing hunter just for the satisfaction of
waiting for the dog that is yelping be-
hind him and taking a fall out of him
when he comes up, a fall that usually
ends the dog's career, especially if it is
a dog not especially trained to hunt the
bear.

"This dog Toby of mine was famous
all through these woods. He was ac-
knowledgeed to be the most accomplish-
ed dog when it came to getting the best
of bear that had ever been in that coun-
try, and if any hunter didn't catch a
bear when Toby was along it wasn't the
dog's fault. Once Toby was borrowed
by a man named Crowley, who knew
where a couple of bears were hanging
out. The dog routed them out and drove
them plumb to Crowley, who could eas-
ily have shot them both, but instead,
when he saw them coming, he cut and
ran. Tim Ball, who had gone along
with Crowley on the hunt, said that
Toby just stood still and gazed in amaze-
ment after the flying hunter. Crowley,
seeing that the bears had got away, soon
came back. The dog showed his opinion
of Crowley by bristling up and growl-
ing savagely and threateningly at him
for a few seconds. Then he quit and
went home. Ever after that Toby would
snap and growl at Crowley whenever he
saw him.

"One day I was looking over a log-
ging job I had contracted for and discov-
ered signs of bear along the creek. Next
day Toby and I went out to see what
we could do with the bear. We soon
struck the trail, and Toby located the
bear in a small patch of laurels, from
which he soon roared bruin. He brought
the bear to bay in a little open space in
a piece of chestnut timber. There was
no necessity of the bear turning at bay,
but he evidently wanted to get a whack
at Toby. I could have easily sent a bul-
let through the bear, but having the ut-
most confidence in Toby's smartness,
and seeing that the bear was anxious to
put his smartness against the dog's, I
concluded to let him have the chance and
to enjoy the sport of a few minutes'
maneuvering between the two.

"It was fun. Toby worried the al-
ready ugly old chap with tricks and
quick movements until the bear was
wild with rage. Do what he might, he
couldn't get a blow or a bite in on Toby,
while Toby got a nip at the bear at al-
most every turn. This amusing dance
lasted for ten minutes, and I felt so
proud of my dog that I declared there
and then that it would take a good deal
more than a \$100 bill to buy him.

"Some wise old natives of those woods
assured me afterward that what this
bear finally did was a premeditated act,
deliberately and successfully carried out
as planned. Others declared that it was
an afterthought of the bear's. I myself
held and hold yet that it was entire-
ly an accident, because I will not admit
that there ever was a bear smart enough
to get the better of Toby by design.

"After sparring and rushing fruitless-
ly at the dog for ten minutes the bear
put his back against a tree and breathed
hard for at least a minute. Then it sud-
denly dropped to all fours and hurried
toward another tree a rod or so away.
Toby followed, and as the bear started
to climb the tree seized it by one of its
hams. Although the dog must have set
his teeth deep in the flesh, the bear did
not stop on his way, but climbed on as
if nothing was worrying him. The dog
held on and was lifted from the ground
as the bear climbed. The higher the bear
went the tighter Toby appeared to hang
on to its rear, and presently he was
swinging in the air 15 feet from the
ground.

"The sight was so funny that I just
tumbled on the ground and roared. The
bear stopped when about 15 feet up the
trunk of the tree, clung there for a mo-
ment, and then let loose. He came down
like a pile driver. When he struck at
the bottom of the tree, Toby was be-
tween him and the ground. There was
a faint yelp, and that was all. Three
hundred pounds of bear had flattened
40 pounds of dog out of all kind of
shape. The catastrophe was so sudden
and unexpected that before I could re-
cover from the painful surprise it gave
me the bear had disappeared in the lau-
rels. There never was a smarter bear
dog than Toby, but he wasn't cut out
for an acrobat. There is where he made
his mistake. There never was a smarter
dog than Toby, nor was there ever a
deader one when that bear got off of
him."—New York Sun.

Mrs. Huntington's Baths.

Mrs. C. P. Huntington recently got
new maid. She instructed her about the
arrangement of her bath. "You will
prepare my bath every morning and
every night," she began. "Mon Dieu!"
exclaimed the new maid, "two baths a
day! Why, my last lady took one in a
week, and the little children only took
one a week too." "Poor little wretches!"
exclaimed the new mistress. And she
tells the story in the same spirit, but
she does not tell whom her maid lived
with before she got her. The two baths
a day are supposed to have an effect in
keeping down her flesh.—Philadelphia

PLEASURE TRIPS.

Numerous Excursions the Coming Summer
at Reasonable Rates.

Whether the tourist's fancy directs
him to the New England States or the
Atlantic seaboard; to the South; or to
the lake region of the North; or to
the Rocky Mountains and the
wonderland beyond the Mississippi,
he will be given opportunity to in-
dulge his tastes at a small cost for
railroad fare this year. There will be
low rates to Baltimore over the Pen-
nsylvania lines in May, account the
American Medical association; to
Decatur, Ill., account the German
Baptist (Dunkard) meeting.

To Pittsburg for the Presbyterian
general assembly. There will also be
low rates over these lines to Meridian,
Miss., account the general assembly
Cumberland Presbyterian church the
same month. In June excursion
tickets will be sold over the Pennsylv-
ania lines to Omaha account the
National Jr. American Mechanics
to Chattanooga, Tenn., for the
International convention of Epworth
league; to Cleveland, O., account the
National Republican league meeting,
and to Roanoke, Va., for the German
Baptist meeting. Excursions for July
include low rates over the Pennsylv-
ania to Baltimore for the L.
Baptist Y. P. Union meet-
ing; to Asbury Park for the L.
A. M. meeting, and to Boston for the
Christian Endeavor convention, and
to Denver, Col., account the National
Educational association meeting. In
August excursion tickets will be on
sale over the Pennsylvania lines to
Boston, account the Knights Templar
conclave. The sale of low rate tick-
ets will not be restricted to the mem-
bers of the organizations mentioned,
but the public generally may take ad-
vantage of them.

The Asbury Park excursion will
doubtless attract many to that de-
lightful ocean resort. Atlantic City,
Cape May, Long Branch, and all the
famous watering places along the New
Jersey coast are located on the Pennsylv-
ania lines, hence this will be a de-
sirable opportunity to visit the sea-
shore. The Denver excursion will be
just the thing for a sight-seeing jaunt
through the far west, as tickets will be
honored going one way and returning
a different route through the most
romantic scenery beyond the
Mississippi and Missouri rivers. Vari-
able route privileges will also be ac-
cording Boston excursionists, enabling
them to visit Niagara Falls, Montreal,
Thousand Islands and St. Lawrence
Rapids, the White Mountains, the
Hudson River territory, and to return
by steamer on Long Island sound, after
sight-seeing in Newport, Narragansett
Pier, Nantucket and the Cape Cod re-
sorts to New York, and thence through
the agricultural paradise of the Key-
stone state, along the Susquehanna
and Juniata rivers, over the Alle-
ghenies, around famous Horse Shoe
curve, through historic Johnston and
the coke and iron regions of
Western Pennsylvania. It is also ex-
pected that Boston excursionists over
the Pennsylvania lines will be privi-
leged to return via Baltimore and
Washington if they so desire.

In addition to the above, there will
be plenty of other cheap excursions
over the Pennsylvania lines to various
points. As the season is some weeks
away, arrangements in detail have not
been consummated, but it is certain
that no railway will offer better in-
ducements than the liberal conces-
sions in rates and privileges that may
be enjoyed by travelers on the Pen-
nsylvania Lines. Apply to any passen-
ger or ticket agent of these lines, or

Passenger Agent, Pittsburg, Pa.
